PERMIT READY ADU SUBMITTAL CHECKLIST

This checklist summarizes the items that an applicant, contractor, or property owner will need to submit as a part of the Permit Ready Accessory Dwelling Unit (PRADU) program. This checklist should be included with your submission, as well as the various forms attached to this checklist (when applicable). Please be sure to review our *Permit Ready ADU Handout*, available at TemeculaCA.gov/ADU to make informed decisions about PRADUs.

PRADU Required Items			
#	Required Items	Answer/Calculation	Notes
1	Plan Selection	☐ Provided	Download the desired plan set at http://www.TemeculaCA.gov/ADU.
2	Title Sheet	☐ Provided **ALL** items on the data tables and all required supplemental information.	Provide all required information listed on the Title Sheet TS0. Complete all required supplemental information.
3	Vicinity Map	☐ Provided	Insert into space provided in the PRADU plan set on sheet TS0 and AS.2.
4	Gas Isometric	☐ Provided	Insert a gas pipe isometric on TS0.
5	Site Plan ☐ North Arrow ☐ Scale ☐ Site Address ☐ Assessor Parcel Number (APN) ☐ Lot Size ☐ Zoning ☐ Property Lines (labeled and dimensioned) ☐ Setbacks (labeled and dimensioned) ☐ Street and Alley Centerline(s) ☐ Easements ☐ Existing and Proposed Topography ☐ Floor Area of Primary Residence o Break down by floors ☐ Floor Area of Garage ☐ Floor area of all accessory structures other than the PRADU ☐ Floor Area Ratio ☐ Lot Coverage ☐ On Site Parking Required o List if the property is within ½ mile of transit. Stops are available at RiversideTransit.com ☐ Height of structures, fences, and retaining walls	☐ Provided **ALL** items on the checklist and on the data sheets.	Insert into space provided in the PRADU plan set on sheet AS.2. Complete all checklist items on that sheet and required items on the sheet. Update the north arrow and any scales as needed.

	☐ List any pools/ponds on the plans		
6	Title 24 Energy Calculations	☐ Provided **updated** energy calculations by an Energy Consultant and replaced the information on the T24.X sheets. ☐	These calculations need to be updated to reflect the specific site of the ADU. Additional Energy Code assistance is available at https://www.energycodeace.com/. You may also consult with a energy calculation professional.
7	Fire Requirements	Existing Home: ☐ Fire Sprinklers ☐ No Fire Sprinklers	Fire sprinklers are required to be installed for your PRADU if your existing home has fire sprinklers (a separate fire sprinkler permit will need to be submitted). Driveway Access requirements If ADU is more than 150' from road, an access road may be required.
8	Soils Report	☐ Provided if the ADU is more than 500 square feet	TemeculaCA.gov/374
9	Grading Plans	☐Provided if the ADU is more than 500 square feet and/or ☐ Provided if more than 50 cubic yards will be moved	Failing to provide a grading plan, if required, will delay your plan review.
Required Forms (attached to this checklist)			
10	CD1 Building Permit Application		
11	PL75 ADU Development Tracking		
12	PL82 PRADU Hold Harmless Form		
13	PW1 Water Quality Management Plan -ADU	Visit TemeculaCA.gov/WQMP for additional information.	
14	ADU Covenant DRAFT	Please provide a draft of this document during your submission. Our Planning staff will review it during our plan review process.	
15	CD2 Owner/Builder Form (if applicable)	Please use caution when utilizing the Owner/Builder option.	
Outside Agency Requirements			
16	If new meters are required for electric, gas, or water, please contact outside agencies as soon as possible.	Eastern Municipal Water District (EMWD) (sewer and/or water) 951-928-3777 x 2081 Rancho California Water District (RCWD) (sewer and/or water) 951-296-6900 Southern California Edison (SCE) 1-800-655-4555 SoCal Gas (SoCal) 1-877-238-0092	
17	If the property is on septic, approved plans from the Riverside County Department of Environmental Health will be required prior to permit issuance.	www.rivcoeh.org/ 951-955-8980	

Online Access		
18	Request an Address	Visit TemeculaCA.gov/address to request an address for your PRADU at **least two weeks prior** to when you plan on submitting.
19	Register for a Citizen Self Service (CSS) Account one week prior to the planned submission date.	Visit TemeculaCA.gov/CSS. Please note, all businesses, contractors, and design professionals will be required to obtain a Business License.
20	Submit Your Plans – Online Submittals Required	Submit your plans online at TemeculaCA.gov/CSS. All plans must be submitted digitally. Instructions for how to submit are available at TemeculaCA.gov/ADU.

Clearances: The following will be **required prior to permit issuance**. **Fees may be required for these clearances.**

1	Building & Safety ✉ permits@TemeculaCA.gov or ☎	(951) 694-6476
2	CR&R (**required** trash disposal service for all construction debris)	(800) 755-8112
3	Fire Dept. (sprinkler system, driveway approaches, etc.)	(951) 694-6405
4	Planning (project approvals, etc.)	(951) 694-6400
5	Public Works – Land Development (grading plan, encroachments, etc.)	(951) 308-6395
6	Eastern Municipal Water District (EMWD) (sewer and/or water)	(951) 928-3777 x2081
7	Rancho Calif. Water District (RCWD) (sewer and/or water)	(951) 296-6900 x5202
8	Riverside County Health Dept. (septic system)	(951) 955-8980
9	Environmental Health Dept. (food prep., public pools, etc.- approved plans req. **before** permit issuance)	(951) 461-0284
10	Temecula Valley Unified School District (TVUSD)	(951) 506-7925
11	Western Riverside Council of Governments (WRCOG) – Transportation Fees –	(951) 405-6712
12	Agent/Employee Authorization when representing the Contractor	
13	Electrical contr. is required for any comm. project (owner/builders)	
14	Homeowner's Association (HOA) – check HOA CC&R's	
15	Bus. License/Contractor's License Required/ Pre-construction meeting required at issuance (new homes/comm.)	
16	Owner/Builder Form/Letter of Authorization for Owner Builder Projects (notarization is required for commercial projects)	

SIGNATURE OF APPLICANT: **DATE:**

The Community Development Technician will contact the applicant when the plans are ready for corrections or issuance.

DISABILITY ACCESS REQUIREMENTS AND RESOURCES

NOTICE TO APPLICANTS FOR BUSINESS LICENSES AND COMMERCIAL BUILDING PERMITS:

Under federal and state law, compliance with disability access laws is a serious and significant responsibility that applies to all California building owners and tenants with buildings open to the public. You may obtain information about your legal obligations and how to comply with disability access laws at the following agencies:

DEPARTMENT OF GENERALSERVICES, Division of the State Architect, CASp Program www.dgs.ca.gov/dsa www.dgs.ca.gov/casp	DEPARTMENT OF REHABILITATION Disability Access Services www.dor.ca.govwww.rehab.cahwnet.gov/disabilityaccessinfo	DEPARTMENT OF GENERALSERVICES, California Commission on Disability Access www.ccda.ca.gov www.ccda.ca.gov/resources-menu/

Certified Access Specialist Inspection Services

Compliance with state and federal construction-related accessibility standards ensures that public places are accessible and available to individuals with disabilities. Whether your business is moving into a newly constructed facility or you are planning an alteration to your current facility, by engaging the services of a Certified Access Specialist (CASp) early in this process you will benefit from the advantages of compliance and under the Construction-Related Accessibility Standards Compliance Act (CRASCA, Civil Code 55.51-55.545), also benefit from legal protections.Although your new facility may have already been permitted and approved by the building department, it is important to obtain CASp inspection services after your move-in because unintended access barriers and violations can be created, for example, placing your furniture and equipment in areas required to be maintained clear of obstructions. For planned alterations, a CASp can provide plan review of your improvement plans and an access compliance evaluation of the public accommodation areas of your facility that may not be part of the alteration.A CASp is a professional who has been certified by the State of California to have specialized knowledge regarding the applicability of accessibility standards. CASp inspection reports prepared according to CRASCA entitle business and facility owners to specific legal benefits, in the event that a construction-related accessibility claim is filed against them. To find a CASp, visit *www.apps2.dgs.ca.gov/DSA/casp/casp_certified_list.aspx*.

Government Tax Credits, Tax Deductions and Financing

State and federal programs to assist businesses with access compliance and access expenditures are available:

Disabled Access Credit for Eligible Small Businesses

FEDERAL TAX CREDIT—Internal Revenue Code Section 44 provides a federal tax credit for small businesses that incur expenditures for the purpose of providing access to persons with disabilities. For more information, refer to Internal Revenue Service (IRS) Form 8826: Disabled Access Credit at *www.irs.gov*.

STATE TAX CREDIT—Revenue and Taxation Code Sections 17053.42 and 23642 provide a state tax credit similar to the federal Disabled Access Credit, with exceptions. For more information, refer to Franchise Tax Board (FTB) Form 3548: Disabled Access Credit for Eligible Small Businesses at *www.ftb.ca.gov*.

Architectural and Transportation Barrier Removal Deduction

FEDERAL TAX DEDUCTION—Internal Revenue Code Section 190 allows businesses of all sizes to claim an annual deduction for qualified expenses incurred to remove physical, structural and transportation barriers for persons with disabilities. For more information, refer to IRS Publication 535: Business Expenses at *www.irs.gov*.

California Capital Access Financing Program

STATE FINANCE OPTION—The California Capital Access Program (CalCAP) Americans with Disabilities Act (CalCAP/ADA) financing program assists small businesses with financing the costs to alter or retrofit existing small business facilities to comply with the requirements of the federal ADA. Learn more at *www.treasurer.ca.gov/cpcfa/calcap/*.

Federal and State Legal Requirements on Accessibility for Individuals with Disabilities

AMERICANS WITH DISABILITIES ACT OF 1990 (ADA) —The ADA is a federal civil rights law that prohibits discrimination against individuals with disabilities, and requires all public accommodations and commercial facilities to be accessible to individuals with disabilities. Learn more at *www.ada.gov*

.CALIFORNIA BUILDING CODE (CBC)—The CBC contains the construction-related accessibility provisions that are the standards for compliant construction. A facility's compliance is based on the version of the CBC in place at the time of construction or alteration. Learn more at *www.bsc.ca.gov*.

HOLD HARMLESS STATEMENT

PROJECT INFORMATION

Applicant Name:

Project Address:	Accessor's Parcel Number:

By using these Permit Ready Accessory Dwelling Unit construction documents, the user agrees to release, hold harmless, and indemnify the City of Temecula, its elected officials and employees, and the Architect who prepared these construction documents from any and all claims, liabilities, suits and demands on account of any injury, damage or loss to persons or property, including injury or death, or economic losses, arising out of the use of these construction documents. The user expressly waives the provisions of California Civil Code section 1542, which provides:

A general release does not extend to claims that the creditor or releasing party does not know or suspect to exist in his or her favor at the time of executing the release and that, if known by him or her, would have materially affected his or her settlement with the debtor or released party.

MINIMUM STORMWATER REQUIREMENTS EXEMPT FROM A GRADING PERMIT (PER MUNICIPAL CODE 18.06.060) 41000 MAIN STREET TEMECULA, CA 92590

********** **SUBMIT THIS FORM WITH YOUR BUILDING PERMIT APPLICATION** **********

Project Name: _____ **Permit Number:** _____
Project Address/Location: _____

Temecula's Regional Municipal Separate Stormwater Sewer System (MS4) Permit[1], which helps prevent stormwater pollution from reaching local rivers and streams requires projects to comply the following minimum Best Management Practices (BMPs), as outlined in the California Stormwater Quality Association (CASQA) Construction BMP Handbook[2]. These requirements are enforced through Temecula's Grading, Erosion, and Sediment Control Ordinance, codified in Title 18 of the Temecula Municipal Code, and are applicable to all construction sites regardless of size.

Erosion Control

- Limit grading during the wet season (EC-1)
- Inspect graded areas during rain events
- Plant and maintain vegetation on slopes (EC-2)
- Cover erosion-prone areas

Sediment Control

- Use silt fences, sediment traps, stabilized construction entrances, and stockpile protection (SE-8, TC-1)
- Retain sediment onsite to prevent offsite transport

Non-Stormwater Runoff

- Prevent discharges from equipment washing and dewatering
- Use designated wash areas and containment (NS-1, NS-2)

Waste Management

- Properly manage materials and waste onsite
- Implement BMPs such as WM-1, WM-3, WM-4, WM-5, WM-8, and WM-9

Examples of Minimum BMP Practices

1. Cover soil piles with tarps or plastic
2. Repair leaking equipment immediately
3. Refuel away from catch basins with spill controls
4. Protect catch basins during nearby work
5. Never wash concrete waste into streets or storm drains; capture concrete sawcut slurry
6. Provide secondary containment for portable toilets
7. Maintain good housekeeping (e.g., sweep gutters daily, keep trash receptacles onsite)

BMP Certification Statement

I certify that the above-listed BMPs will be implemented and maintained throughout the duration of construction activities for the project listed above. I understand that failure to comply may result in enforcement actions.
